## A LOOK AT BOOKS

Joseph V Roberts The Technological Thing  
Versus The Good Human Life

What is the most powerful ideological current operating in todays world? It is not capitalism, not Communism, says the author of this book. It is Totalitarian Technologism. Mankind is now practically at the mercy of this current, and where is it leading him? To the earthly paradise he hopes for? Or to a hell on Earth? This book will make you think twice about these questions. Cloth 211 pages \$5.95

.....

Harvey Cardwell Earth Science At Crisis

This book offers a fascinating revision of modern physical theory, based on a convincing reinterpretation of the fundamental data on which relativity theory was built. The need for this reinterpretation, says the author, is now confirmed by the fact and behavior of the UFO,s in our skies. And unless this new physics, long overdue, is pursued and worked out by our scientists, we will never achieve the technological triumphs that our interplanetary visitors prove to be possible.

# SEASON'S GREETINGS

AND SINCERE GOOD WISHES FOR THE HOLIDAYS

## People Are Saying ...

IN TEXAS, the UFO sightings continue.

For the second night in a row near Bowie, as of mid-October, residents have recorded seeing UFO's in the sky.

A Bowie police dispatcher said several callers Oct. 16th described three different objects floating above the city.

Similar reports of UFO sightings the same night were made in Denton (Tx.) and southern Oklahoma.

At 9:45 p.m. Tuesday the 17th, another UFO sighting was reported to Bowie police.

The caller described the "object" as "white light coming down with red and flashing lights on both sides," a police dispatcher said.

No explanation has been made at press time.

The story on Sr. Eric Gairy, of Grenada, in the West Indies, is to say the least interesting. He's the prime minister of the tiny island of 120,000 people. He said recently he has seen two UFO's in the last three years, the second time earlier from a hotel room in Grenada.

He predicts: "The time is going to come ... when everybody on Earth will have to pay attention to the UFO phenomenon."

Gairy, who says he's more "mystic than politician" refused to confine himself to "global boundaries."

In 1977, Gairy succeeded in getting UFOs on the General Assembly's agenda. The result was an agreement that any country with information or ideas on the subject could send them to U.N. Secretary-General Kurt Waldheim.

However, in the year since Waldheim has made no public mention of cooperation from member nations. Gairy was back at the United Nations earlier in October of '78 to make his case again.

"It would be very conceited for man to think he is the most intelligent of God's creatures."

10-12-78

Up in Stockton, Illinois, a UFO was spotted by Stockton Policeman Dennis Jagodzinski in September, who described the object as "a close encounter of the first kind", when he saw the large disc-like object with blinking lights in the sky late in the night.

About 11:30 several calls came into the Stockton Police Department, all on the same subject — an unidentified flying object. Jagodzinski said he took a drive and observed the object in the sky for about 45 minutes.

He described it as round with a red pulsating light in the middle. Around the disc were blue, green, yellowish-orange and white lights. He said that when the red light dimmed the other lights would go on, one at a time.

"I know it was something solid, not a star and not an aircraft. I was in the Air Force for four years and I never saw anything like it."

According to Jagodzinski, the object moved laterally to the right and then to the left for about 25 minutes then made small circles in the sky and finally drifted up — slowly. "As far as I know it went out of sight."

Once he got to the scene, he called another officer to verify what he observed.

Steve Allendorf, a Jo Davess, accompanied Jagodzinski and confirmed his description.

"I saw the same thing," he said, and declined to answer any further questions, saying more information would have to come from superiors.

A spokesman at the Greater Rockford Airport control tower said there were no aircraft or meteorological equipment in the area at that time.

According to the Chicago Air Route Traffic Control Center, which monitors high-altitude jets and weather balloons, there were no such

vehicles in the sky.

Jagodzinski said unconfirmed reports of such sightings have been coming into Stockton Police Department for about two weeks. The sightings have occurred to the west and north of Stockton, according to the reports, he said.

## UFO Spotted in Portugal

LISBON — Dozens of Portuguese bombarded the national radio station the night of August 30 with reports of a large unidentified flying object hovering over Lisbon. According to the callers, the craft was a large round object festooned with bright red and white lights that flew about 150 to 250 yards above the ground.

## letters to the editor...

The Editor

Dear Jim: This is the first time I've ever attempted to write a letter of this nature. However, I was so moved by a recent experience that I felt compelled to inform you.

On the night of July 6, 1977 I was on vacation visiting a sister in a small Utah town of Beaver which is 50 miles northeast of Cedar City. We were looking at a brilliant, clear sky. We saw shooting stars and airplanes on the north edge of the sky. Our eyes caught a bright round object flying south about twice the speed of a commercial airline. We watched it for a minute and a half when it disappeared over the mountains.

It's one thing to read about them but it's another thing to see them with your own eyes.

# UFO GUIDEBOOK

Norman J. Briazack /  
Simon Mennick

THE UFO GUIDEBOOK contains definitions and cross-references of the language of ufology and related matters, as well as being a comprehensive review of the entire subject.

By not championing any specific ufological theory, the book objectively describes all major theories and points out the strong and the weak points of each current ufological postulate. This review of the entire subject of ufology in one book thus provides students and researchers with a useful work of reference.

The authors have devoted the past six years to investigating all reports of unidentified flying objects. They conclude that UFOs are very real, despite the disbelief of skeptics. A Gallup Poll has indicated that a majority of the American people agrees with the authors' conclusion.

**THE PULSE OF THE UNIVERSE:  
HARMONIC 288**

In 1952 Captain Bruce Cathie of New Zealand's National Airways Corporation, with a group of friends, made a prolonged evening sighting of a UFO at Mangere, Auckland. From that day all Captain Cathie's spare time has been dedicated to unravelling the mysteries of UFOs and cognate phenomena. His first two books on the subject aroused worldwide interest and brought him into touch with scientists and ufologists in many countries.

In his first book, *Harmonic 33*, he postulated the existence of a world magnetic grid, proving this by mathematics and showing that it is directly associated not only with UFO sightings and activities, but also with such diverse matters as the world's great "meteorite" craters, gravity anomaly areas, the structure and dimensions of the Great Pyramid and many other scientific puzzles.

His second book, *Harmonic 695*, carried his researches a stage farther and demonstrated that the grid and some of its powers are known and being used by the "atomic" nations but being kept under a veil of secrecy.

In *The Pulse of the Universe: Harmonic 288* he takes another great stride forward. He probes into space-time, throws new light on Einstein's famous  $E = MC^2$ , and discusses the harmonics of light, sound, temperature, lasers, plant growth and human health. He also shows how scientists, when ready to break out of their present narrow disciplines into the immeasurably wide fields he has thrown open to them, will be able to carry human knowledge to heights undreamed of including communication with life on other planets . . . Far-fetched? Too fantastic? The most sceptical reader cannot fail to be impressed by Bruce Cathie's cool and methodical presentation of the facts, and to agree that the harmonic of the speed of light is the key to the understanding of all life and all matter, and to the mysteries of the universe itself.

# Amazing picture of UFO not faked, says photographic expert

THE original print of this amazing picture of what appears to be an unidentified flying object has been examined closely by top English professional photographer David Spokes, who says it definitely has not been tampered with or faked in any way.

Taxi driver Terry Bishop took the picture on his Polaroid camera after he saw the strange object hovering over his house in Dorset, southern England, late one night last month.

And Bishop was not the only person who saw the object. Over a five-hour period that night there were many reports of unexplained phenomena in the sky from widespread areas of the country.

But Bishop was the only one who knew exactly what to do when he saw the mysterious glow in the sky — he dashed out into his garden and put it on film.

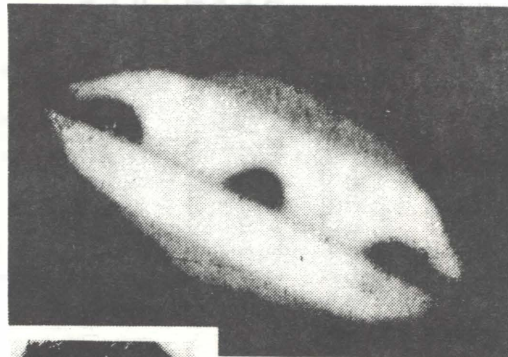

Bishop, 29, says of his strange encounter: "All I know is that it was like nothing I have ever seen before.

"I have no positive evidence that it was a spacecraft from another planet. But it was certainly not an aircraft, or anything else known to man.

"People have tried to suggest it was a fireball of some kind, but this had its own power source.

"I wish there was a logical explanation."

Bishop says he first noticed a brilliant yellow and orange light flashing across the sky when he was getting ready for bed about 2:45 a.m.

THE STAR MAY 16, 1978

— TERRY BISHOP

"For several seconds I stood motionless, looking at it through the window," he adds. "It was moving at a steady pace and giving off an incredible glow.

"Out in the garden I realized the object was about half a mile away, although it was difficult to judge distance and speed because it was dark and there were no visible landmarks.

"It was oval-shaped and about the size of a double-decker bus. The whole thing was on a horizontal plane, tilted at what seemed a rather awkward angle.

"I had two shots at the end of my

film and decided to get a picture. At this stage the object was still moving, though not very quickly.

"I took one shot, went inside to wait for it to develop, and found that it hadn't been a success.

"When I went back outside, to my amazement the object was stationary — just hovering there.

"It didn't give off any direct light, but glowed bright. The top and bottom were almost red and the central area was yellow and orange.

"Across its middle was a dark line, almost like a rim, with three small dark semi-circular spots evenly spaced apart.

"I took my second shot, making sure I changed the light control on the camera. As I went indoors, the object started to move slowly upwards.

"This time the picture came out. The colors were slightly vivid because I had over-exposed it, but it was still a clear representation of what I had actually seen.

"Do I believe in flying saucers?" he says. "Well, sometimes truth is stranger than fiction.

"I do know that I have gone through a most peculiar experience . . . one that I won't forget for the rest of my life.

"And I still have my picture."

- offers proof from the Bible of the existence of ancient astronauts
- examines records they have left
- gives a new, space age interpretation of the entire Bible
- discloses the time of the astronauts' return in the immediate future
- explains their plan for colonizing the earth
- shows how they will do it with scientific marvels that solve our energy and environmental crises, bring peace and justice, and eliminate disease and death
- reveals a dazzling new prospect for the future of mankind

"We have been astonished by what we have discovered upon careful examination of the Hebrew or Greek texts. Dozens of passages, in almost every book of the Bible, provide overwhelming evidence that its writers had knowledge of a civilization far in advance of our own today....

"We are their re-creation and could not have emerged by biological evolution alone. We contain the Celestials' imprint, or signature. As the Bible puts it, we were made in their image....[In this book] we will examine this evidence of man's strangeness--the evidence that we are 'heirs of God.' "

# OUR ANCESTORS CAME FROM OUTER SPACE

BY MAURICE CHATELAIN

Did human civilization begin 65,000 years ago when extraterrestrial visitors landed on this planet? Is it possible that all mankind's knowledge did not evolve slowly but was bequeathed to us suddenly by such visitors?

Maurice Chatelain has compiled an enormous amount of evidence indicating that this may be the case. A former NASA space expert, he argues the astronauts from another planet in another solar system did land on earth where they mated with Neanderthal women, thus producing the Cro-Magnon people — much more highly developed—and taught them very advanced knowledge. *These* were our ancestors.

Sounds fantastic—but Chatelain's theory has a sound scientific basis. Using computers, he has carefully studied such mysteries as the Egyptian pyramids, Mayan calendar, and Sumerian zodiac. From new and pre-

Earth Invaded from Outer Space

by

Matthew H. Adams

"My Grace is sufficient for thee," has been M. H. Adam's guide through sixty years of service to God. He has done considerable reading and studying of the Old and New Testaments, and with that he has arrived at very strong convictions that God has poured and will continue to pour His wrath on the wicked who will not repent.

The Reverend Adams cites events in history to prove his interpretations of the Bible. His great concern is with our present generation, which he feels is in the eleventh hour of man's existence. The common market, the Communist countries, the dictators, as well as the frequent murder, rape, and drugs are symptoms of our deterioration.

To rid the world of evil, the author foresees an army in U F O space ships coming from another planet. They will look like the human race, dressed in armor sparkling like diamonds. They will be riding steeds similar to horses, only they will have heads like lions, snorting fire and brimstone. They will never break rank and no obstacle will stop them. Their aim will be to destroy the ungodly. Only repentance can save the ungodly from destruction. After the invading army kills off many of the evil men, they will leave the earth. Some of the evildoers will still remain and the final deliverance of the believers will be made by Christ.

The author quotes many passages from the Bible to substantiate his predictions.

## THE UFO CONNECTIONS OF JESUS CHRIST

by Kazmer Ujvarosy

Were angels in fact extraterrestrial civilizing astronauts, messengers sent to educate the populations of backward planets to the principles and origins of man and the universe?

Author Kazmer Ujvarosy has researched many ancient texts, such as the Apocryphal or concealed writings of Christianity, to discover that they are in agreement in their singular recognition of space visitors' activity among them, coming in vehicles described by the ancients as "fiery chariots," "clouds of light," something referred to as an "aerial and excellent car," which today we would call spaceships or UFOs.

A part of this civilizing message was that our planet is actually a living, immense "tree," springing from the eternal seed of Cosmic Man—the seed of all life.

Was Jesus the result of one of these astronauts artificially inseminating Mary? Find the enlightening answer to this and many other such volatile questions in *The UFO Connections of Jesus Christ*, a book that will open up an entirely new perspective before its readers.
